I - Isolate!
Once it's been established that a case of New Plague may be present, separate yourself and the person exhibiting symptoms from the general population, as the New Plague is notoriously contagious.

R - Report!
Report directly to the nearest Federal Fitness Registry of Medical Center and let th-e professionals handle it from there!

Protect Yourself!
The New Plague is what's commonly known as a “social disease”. This means that the New Plauge is especially contagious and can be commonly caught in the course of social interactions such as:
-Ice Cream Socials
-Cruising Main Street
-Promiscuous Activity/Sodomy
-Attending Fairs or Festivals

So; what's the best protection against social diseases? Why not stay home and enjoy a novel or home-cooked meal? Limiting your exposure to other individuals is the best and more surefire way

to avoid contracting the New Plague.

Get Registered!
Did you know that your government can protect you from the New Plague and other biological dangers? It's true, and all you need to do is visit your local Federal Fitness Registry. Friendly Federal Professionals will be on hand to take a few minor samples and enter you in the national registry.

Your compliance with the Federal Registry Program not only keeps medical professionals up-to-date on your medical history and status, but contributes to valuable research programs - and makes you eligible for special prizes, such as fuel rations or vacations to exotic domestic locales!
